Subject: RFB to Tree Trimming Contractors for the placement of Line Mile Bids on  
GEA approved Distribution Circuits.

**To Bidding Contractor:**

The GEA has determined (15) circuits to line mile bid for the year 2025. We are asking for each qualified contractor to take the opportunity and bid on these circuits. All tree trimming and tree clearance work on these circuits will comply with The Greeneville Energy Authority System Contract Standards And Bid Specifications Manual Revised Edition C. This includes tree trimming methods as outlined in pruning Trees Near Electric Utility Lines by Dr. Alex L. Shigo. Payment for each circuit will be sent, in full, to the Contractor (30) days from receipt of invoice, when all circuit work is complete in its entirety and audited by GEA. No partial payments will be made by the GEA. All rework will be at the expense of the Contractor.

On March 17, 2025, The Greeneville Energy Authority will start accepting contractor bids for the following circuits:

SUBSTATION CIRCUIT			
1 .	Crossroads 214 @ 57.4 miles	11 .	Shiloh 234 @ 7.3 miles
2 .	Crossroads 224 @ 60.1 miles	12 .	Shiloh 244 @ 9.0 miles
3 .	Crossroads 234 @ 56.4 miles	13 .	Tusculum 214 @ 35.0 miles
4 .	Crossroads 244 @ 63.1 miles	14 .	Tusculum 234 @ 24.2 miles
5 .	Erwin Hwy 214 @ 79.2 miles	15 .	Tusculum 254 @ 89.8 miles
6 .	Erwin Hwy 234 @ 44 miles	16 .	
7 .	Erwin Hwy 244 @ 13.3 miles	17 .	
8 .	Mountain View 234 @ 16.6 miles	18 .	
9 .	Shiloh 214 @ 28.1 miles	19 .	
10 .	Shiloh 224 @ 24.1 miles	20 .	

The GEA will conduct a pre-bid meeting for this RFB on February 4, 2025 at 9:00 a.m.  
in the conference room upstairs

Greeneville Energy Authority  
P.O. Box 1690, Greeneville, Tennessee 37744 / 423-636-6200

**BID PROPOSAL FOR GEA LINE MILE CIRCUITS FOR THE FISCAL YEAR OF JULY 2025 THRU JUNE 2026**

1. The bid proposal will include any mechanical work in the per mile rate. All trees, tree limbs and overhangs that cannot be worked by mechanical means must be climbed and hand cut or removed. All r. o. w. vegetation not mechanically removed must be hand cut and removed. All trees will be trimmed in accordance with **The Greeneville Energy Authority Contract And Bid Specifications Manual Revised Edition C**. This includes tree trimming methods as outlined in the booklet named **Pruning Trees Near Electric Utility Lines by Dr. Alex L. Shigo**. All fence rows must be cut and cleaned, including the brush underneath electric lines, as to be suitable for herbicide application within the ( 30' ) ft. r. o. w. . All trees near secondary lines and service lines must be trimmed to a ( 5' ) ft. clearance.
2. All equipment, labor, materials and supervision shall be included in the line mile bid to facilitate the trimming of trees and tree limbs near GEA energized primary lines, secondary lines and service lines. The line mile bid shall also include all methods to remove undergrowth and vegetation along GEA right - of - ways.
3. The Contractor shall agree to hold harmless, indemnify and defend the GEA and its affiliates from all damages or claims to the proportionate extent such claim is caused by Contractor's negligence while performing work at The Greeneville Energy Authority and its facilities.
4. The Bid proposal is a per mile bid only.
5. The Contractor shall agree to contact GEA customers and prospective property owners for the purpose of securing permission necessary for crews to perform the work.
6. When trees are to be removed, the Contractor shall treat each stump with a cut - stump herbicide application or equivalent as approved by the GEA. No payment will be made for removals where the Contractor has neglected to apply the proper herbicide application to the cut stump.

**BID PROPOSAL FOR GEA LINE MILE CIRCUITS FOR THE FISCAL YEAR OF JULY 2025 THRU JUNE 2026**

7. Flat - topping of trees is permissible only to yard trees at customer request that are in or near energized primary lines. No flat - topping will occur to trees limited to service drops. If the tree to be flat - topped can be crown reduced to lateral branches, the Contractor must do so as to prevent excessive re - growth of sprouts. **Contractor must maintain ( 15' ) ft. clearance to primary lines unless approved by GEA representative.**
8. All primary trims shall be in accordance with a ( 15' ) ft. clearance to energized primary lines unless approved by GEA Representative.
9. The following is a list of each circuit with its prospective map location as part of this proposal:

SUBSTATION CIRCUIT		CIRCUIT MAP
